

AMERICAN OSTEOPATHIC ASSOCIATION

TREATING OUR FAMILY AND YOURS

OHIO  
OSTEOPATHIC  
ASSOCIATION

June 26, 2017

The Honorable Rob Portman  
United States Senate  
448 Senate Russell Office Building  
Washington, DC 20510

Dear Senator Portman:

The American Osteopathic Association (AOA) and the Ohio Osteopathic Association (OOA), representing nearly 130,000 osteopathic physicians (DOs) and osteopathic medical students including 5,662 DOs practicing in Ohio, recognize the many challenges our current health care system faces and are supportive of efforts to improve it. Health care stakeholders across the United States share the responsibility of promoting reforms and policies that ensure individuals and families will have access to coverage and care when and where they need it. We feel that the Better Care Reconciliation Act (BCRA) falls far short of representing such improvements, and would in fact actually exacerbate its current shortcomings if passed into law as written.

The AOA and OOA unequivocally believe that the primary focus of any health care reform policy should be to expand or at least maintain access to comprehensive, affordable coverage and care. To this end, we are concerned about access to care for the most vulnerable in our nation, including those who lack the resources to directly access health care themselves. We are concerned that the changes being considered for the Medicaid program as part of the Senate bill will significantly impact coverage for these Americans. The Affordable Care Act (ACA) expanded Medicaid eligibility to millions of people across the country. **In Ohio, 682,900<sup>1</sup> newly-eligible people were enrolled in Medicaid as a result of expansion.** Medicaid also plays an important role in covering our state's most vulnerable patients: seniors, and adults and children with disabilities, especially those with long-term care needs. There are **204,600 seniors and 413,800 people with disabilities** that rely on Ohio's Medicaid program for their coverage<sup>2</sup>. Medicaid covers over half of the births in the United States, and over forty percent of nursing home beds.

Medicaid also plays a vital role in addressing the opioid epidemic. In 2015, over two million people were addicted to prescription opioids and 591,000 addicted to heroin.<sup>3</sup> In Ohio, **29.9 of every 100,000 people died** as a result of an opioid overdose in 2015.<sup>4</sup> Medicaid plays a crucial role in helping those with opioid use disorder get the treatment they need. For example, Medicaid funded 50% of buprenorphine medications in Ohio,<sup>5</sup> a vital evidence-based treatment for opioid use disorder. However, health coverage for thousands of Ohioans will be lost if the Medicaid expansion is eliminated and per capita caps place harsh restrictions on funding. **The health care costs associated with opioid abuse cost Ohio \$1,075,753,413 in 2015 alone.**<sup>6</sup>

Page 2

According to the Urban Institute, Medicaid enrollment for the nonelderly population would drop by 35% in Ohio if the state phased out Medicaid expansion and reduced enrollment for other Medicaid beneficiaries to compensate for Medicaid expansion funding and per capita cuts under the American Health Care Act.<sup>7</sup> As the BCRA would result in even deeper cuts to the Medicaid program, this troubling trend would be even more harmful to patients. As our nation addresses the opioid epidemic, we need to strengthen programs that support access to care for public health interventions.

While the ACA is not perfect, the goals of health care reform should lead to increased access to coverage – not less. The outcome of the BCRA will greatly jeopardize our patients’ access to affordable, high-quality care, and undermine our nation’s efforts to address public health crises such as the opioid epidemic. As physicians and as constituents, we ask that you work with your colleagues to address the shortcomings of the ACA without stripping coverage from millions of Americans.

Sincerely,

Boyd R. Buser, DO  
President  
American Osteopathic Association

Sean D. Stiltner, DO  
President  
Ohio Osteopathic Association

cc: Governor John Kasich
