Procedures for Applying for a New Osteopathic Intern Training Program

Applications for new intern programs submitted to AOA must include all signatures and all attachments.

Applications will not be reviewed by AOA staff until all information is complete.

**Incomplete applications will not be forwarded to PTRC for review.**

To be complete, applications must include the following items and information:

1) Applications must be signed by CEO, DME, applicable sponsor and the OPTI.

2) Copies of all the following documents **must be submitted** with the application:

   1. Letter appointing DME.
   2. Curriculum vita for the DME.
   3. Copy of applicable (osteopathic hospital or COM) sponsorship agreement.
   4. Copy of OPTI agreement.
   5. Copies of affiliation agreements for offsite rotations, if applicable.
   6. Hospital statistics.
   7. Rotation schedule for intern class with designation of service and site.
   8. Form for evaluation of interns.
   9. Form for evaluation of rotations.
   10. Osteopathic Intern Training Manual containing requirements for osteopathic integration (OPP/OMM) and structural evaluation of patients, AOA match requirement, AOA contract requirement, AOA membership requirement and goals and objectives for all clinical rotations.
   11. If this program is part of an ACGME residency program, a copy of your latest approval letter for three or more years must be included.

3) Once the Internship program is approved by PTRC you will be invoiced for a one-time new program fee of $3200.
Application
For
New Intern Training Program

Name of Institution applying for new intern program:

__________________________________________________________________________

Street Address:  ______________________________________________________________

City, State, Zip:  ______________________________________________________________

Telephone:  __________________________________________________________________

FAX:  ______________________________________________________________________

E-Mail Address:  _____________________________________________________________

Director of Osteopathic Medical Education:  _______________________________________
(Must be a D.O. who completed an AOA-approved internship, be AOA Board Certified and have
three years osteopathic teaching experience.)

Osteopathic Education Contact Person:  __________________________________________

Chief Executive Officer:  ______________________________________________________

Sponsoring institution:  _______________________________________________________
(AOA-accredited Hospital or Osteopathic College, if applying institution is not AOA accredited.)

OPTI Officer_____________________________________________________________

Affiliate Institution:  _________________________________________________________

Address of institution:  _______________________________________________________
(Other institutions where outside rotations are going to be held. List rotations.)

OPTI Affiliation:  ____________________________________________________________

Specify date you wish to start training:  ______________________________________
(Generally July 1 of the following year.)

Number of positions for which approval is requested: _______________________________

Number of these positions you expect fund during the first training year:  _______________
Will this program be part of an ACGME residency program?  ___yes  ___no

If yes, what is the residency___________________________________________________

Attach a copy of the latest ACGME approval letter.

What will be the distribution of the number of positions:  _______M.D.  ______D.O.

Rotation schedule being adopted for the first year of the internship:

_____Traditional rotating  (See model internship curriculum that includes the five core rotations.)

_____Special emphasis ________________________________________

_____Specialty track _________________________________________

Signature of the Chief Executive Officer   Date   Name, typed

Signature of the Director of Medical Education  Date   Name, typed

Signature from Sponsoring Institution   Date  Name, Title, typed
(If applicable)

Signature from OPTI      Date  Name, Title, typed

Attach a check for the appropriate amount, as determined by the chart below:

<table>
<thead>
<tr>
<th>Hospital Bed Size</th>

</tbody>
</table>

Mail application and check to:
American Osteopathic Association
Division of Postdoctoral Training
142 E. Ontario Street
Chicago, IL  60611-2864

Internships require a site review before approval. Please list dates within the next 90 days where you will not be available for a site review.

Primary contact regarding logistics (name, phone, email)
Please note:
The consultant surveyor will verify the information on this application during the site visit. Use this application as a guide to determine that all standards are or will be met. Answer briefly here, but be prepared to expand on the answers during the site visit. Please furnish documentation where requested and label with appropriate AOA standard number, as listed.

A. FACULTY AND ADMINISTRATIVE STAFF

1) The Director of Medical Education (DME) at the sponsoring organization must be an osteopathic physician with AOA-approved postdoctoral training. (Standard 2.24-2.30)

DME’s name:_______________________________________________________________

His/her internship training:____________________________________________________

(Attach curriculum vita showing credentials.)

2) The DME is formally appointed by the institution as the person who will be responsible for the clinical education of interns. (Standard 2.27) (Attach letter of appointment.)

3) The DME will meet with the interns at least quarterly to insure that program objectives will be met. (Standard 2.29, c)

Attach or explain a schedule/plan of meetings:

4) The internship must have a program director to function as the administrative and education director of the program and may be the same individual as the DME. (Standard 2.34-2.37)

Describe how this requirement will be met:

5) The institution may appoint an administrative director of medical education who is responsible for coordination of the program. If there will be an administrative director of medical education, please note below. (Standard 2.31-2.33)

Name:_________________________________________________________________________

Credentials:  __________________________________________________________________

6) The Education Committee shall include the DME, administrative personnel, and representatives of major affiliates and clinical services. (Standard 2.43)

Identify members of the committee and specialties represented:
7) The Education Committee shall work to maintain and improve program quality. It shall meet at least monthly. Minutes of the committee meetings must be maintained. (Standard 2.43) 
Attach meeting schedule.

8) The Education Committee shall be organized to assist the DME to develop and implement a high-quality educational program for interns. The committee shall, in cooperation with the DME, develop a curriculum and methods of evaluation of the educational experience of the intern during training. (Standard 2.44) 

Describe how your Education Committee will function: 

Describe the inter-action with the existing ACGME residency program.

9) The Education Committee will participate in program and intern evaluation. (Standard 2.45) 

Describe how the Education Committee will participate in the evaluation process:

10) Professional staff members who serve as faculty of the program must be qualified by training and experience to perform this role and be proficient in their areas of practice. A list of teaching faculty and their credentials must be available to the AOA at the time of inspection. 

Comment on number, training and experience of faculty. List key faculty for each curriculum component. Attach a list of the physicians on staff at your facility and their specialty. Indicate the names of the physicians who will be involved in the training program.

11) In addition to being medically competent, the professional staff members must be willing and able to provide instruction to interns at the bedside and in ambulatory settings. They must provide time in patient care schedules for the conduct of education. (Standard 4.43) 

Comment on evidence of faculty interest and ability for teaching.

12) The professional staff should include an individual or individuals qualified to teach biopsychosocial component. (Standard 4.34) 

Name faculty who will have this responsibility and method of offering this component::
B. ADMINISTRATION OF THE EDUCATIONAL PROGRAM

The intern training program shall have formal policies to direct the activities of interns and interns must be advised of these policies, in writing, upon entrance into the program. Please furnish a copy of the intern training manual with administrative policies listed.

13) The minimum period of service for the completion of the intern program shall be fifty-two (52) weeks. A maximum of twenty (20) business days of vacation, professional, sick or other leave may be granted by the DME. If an intern will be given a leave of absence for reasons of maternity, physical or mental disabilities and returns to duty, he/she may continue the training to completion for the required fifty-two (52) weeks. The program shall have a written statement of policies regarding leave, within the Intern Training Manual. (Standard 4.17 & 4.18)

Note: Federal or state law or union regulations may impose requirements regarding vacation or leave other than the AOA policy; if so, the institution must follow the law or union regulations.

Briefly comment on proposed leave policies:

14) At the beginning of the intern training program, there shall be a period devoted to formal orientation of the interns to the administrative and professional organization of the program, facilities available in the laboratories, nursing, social services, risk management, quality assessment, dietetics, record room, and pharmacy. Interns shall be advised regarding duties, professional ethics and conduct towards other members of the health care team. (Standard 4.19)

Briefly comment on proposed orientation.

15) Interns are required to devote their entire effort to the educational program. (Standard 4.20)

Note: While residents may do outside work with approval (see residency policies), interns may not.

State your intern policy.

16) Each intern shall receive a medical evaluation, and routine laboratory studies as required by the institution at the beginning of the internship and periodically as indicated. (Standard 4.21)

State your institution policy.

17) There shall be a training manual, which will include, but not be limited to the following: (Standard 4.18)

1. Educational goals and objectives for all core rotations.
2. Rules and regulations regarding intern duties and responsibilities, including floor procedures and general orders.
3. Leave policies.
4. All financial arrangements, including housing, meals and other benefits, as determined by the institution and described in the intern contract.
5. An outline of the content of the orientation program.
6. Reminders that outside clinical work for pay is prohibited.
7. Interns must remain members of the AOA.
8. Policies governing evaluation and appeal mechanisms.

Attach a copy of the osteopathic training manual.
C. CLINICAL AND EDUCATIONAL RESOURCES

Institutional facilities and resources must be adequate to provide educational opportunities to the intern. The institution must assume the financial, technical and educational support and provide the necessary space, facilities and learning environment for the establishment and maintenance of an approved program.

18) The institution shall provide an appropriate medical library which is properly staffed and maintained by a qualified librarian. This library shall include access to standard medical reference texts and current medical journals. (Standard 2.102) Describe your library facility, including information on access, staffing, computer and other learning resources, etc.:

19) The institution should provide the intern with 24-hour access to basic clinical texts to allow interns “on-call” to consult necessary references. (Standard 2.107) Describe this access, which may be part of an emergency department or other accessible facility.

20) Conference rooms shall be available for formal instruction. (Standard 2.99) Describe space availability:

21) Teaching aids should be provided to facilitate learning. (Standard 2.100) Describe teaching aids available:

22) Financial support provided to the interns shall be adequate. (Standard 2.55) What is the intern salary? ____________________________ What other financial support is provided for interns? ____________________________

23) Will the patient volume on each rotation provide sufficient scope and variety to allow the internship to be a worthwhile educational experience? (Standard 4.25) Attach a copy of hospital statistics (for example, admissions, surgeries, mortalities, outpatient cases) for the past calendar year.

24) To present an overview of the educational experience at your institution, please complete the following informational grid.

Licensed bed capacity in most recent fiscal year. __________________ Fiscal year: __________________
Average percentage for occupancy of licensed beds in most recent fiscal year: __________________
Average daily inpatient bed census; acute care services only: __________________
List all regular ambulatory services that will be routinely used for interns. For each site, list specialty, location and average number of patients per day/per supervised teaching site.

D. CURRICULUM AND INSTRUCTION

25) The intern standards include different rotation schedules such as: rotating internships, various special emphasis or specialty track internship program curriculum. (Standard 4.26)

Please designate which rotation schedule/s your program will use: ____________________________

E. TRADITIONAL ROTATING INTERNSHIP

The basic core rotations are family practice, general internal medicine, general surgery, obstetrics/gynecology, pediatrics and emergency medicine. Medical/surgical subspecialties—other than those identified below, MAY NOT substituted.

26) Four (4) weeks or one (1) month of family practice. Family practice may be offered as an ambulatory or inpatient family medicine block or half/day per week continuity of care for forty-six (46) weeks or combined ambulatory/inpatient block. This rotation may include, but is not limited to experiences in the following: general practice office; geriatrics; hospice; school physician; venereal disease clinics or public health clinics. (Standard 4.27, d & Appendix 1)

Where and how will this component be taught? List key teaching faculty:

27) No less than eight (8) weeks or two (2) months of general internal medicine. This rotation time may be spent in any one or combination of the following equivalent rotations: ICU/CCU; ambulatory care internal medicine clinic; geriatrics; public health clinics; inpatient general internal medicine. (Standard 4.27, b & Appendix 1)

Where and how will this component be taught? List key teaching faculty:

28) Four (4) weeks or one (1) month of exposure in emergency medicine at the base or an affiliate training site is required. (Standard 4.27, c & Appendix 1)

Where and how will this component be taught? List key teaching faculty:

29) Additional training time will be defined by the institution. If the family practice requirement is fulfilled through continuity of care for the entire training year, an additional four (4) weeks or one (1) month will be available for training as defined by the institution.

Where and how will these components be taught? List key teaching faculty:

F. INTERNSHIP OPTIONAL ROTATION SCHEDULE

30) If you will be presenting one of the special emphasis internship or one of the specialty track internships, please submit a copy of the curriculum you will be using. Be sure to include where and how all components will be taught and the list of key teaching faculty.

NOTE: These tracks may only be offered in institutions with approved AOA residencies in the respective specialties.
G. ADDITIONAL CURRICULUM COMPONENTS

In addition to the required rotations outlined above, each intern program must have the following curriculum components:

31) Osteopathic principles and practice must be incorporated throughout the program. This will include structural and palpatory diagnosis and osteopathic manipulative treatment. Such diagnosis and treatment shall be documented on patient charts. (Standard 4.32)

Describ how this requirement will be met:

32) Bio-psychosocial knowledge and skills shall be taught in both formal and informal settings throughout the internship. These shall include such factors as medical sociology, doctor/patient/family communication, crisis recognition and intervention, interviewing skills, anxiety/depression recognition and management, and substance abuse care. (Standard 4.34)

Describe how this requirement will be met:

33) Each intern shall receive exposure to anesthesiology, pathology, radiology, and other disciplines related to the clinical practice of medicine. (Standard 4.35) Describe how this requirement will be met:

34) Educational goals and objectives shall be defined for each rotation and be included in the training manual. (Standard 4.36) Describe how this requirement will be met:

35) The intern shall be expected to develop the skills to produce high-quality medical records. The intern shall: (Standard 4.37) Describe how this requirement will be met:

a. Obtain and record the patient history.

b. Perform and record the results of the physical examination, including use and application of osteopathic principles and therapeutics.

c. State the working diagnosis on each assigned patient.

d. Write daily progress notes that are dated, timed, signed and identifying intern status.

36) Interns should follow assigned hospital patients from admission to discharge. At time of discharge or service change, interns must record a concluding progress note summarizing the patient’s course in the hospital for patients for whom they have been assigned major responsibility. This note shall be reviewed by an appropriate professional staff member. (Standard 4.38) Describe how this requirement will be met:

37) The institution and intern shall each retain a copy of a detailed record (log) of activities on each assigned rotation. The minimum information required in these logs is specified on forms provided by the division of Postdoctoral Training of the AOA Department of Education. This information shall be used by the institution in evaluating its training program and is of value to other institutions in determining initial privileges to be granted to a physician upon admission to their professional staff. These logs and associated patient charts shall be subject to review by authorized AOA inspection teams. Interns shall be advised to keep copies of all logs permanently and institutions shall retain all original logs for a minimum of three (3) years. (Standard 4.39-4.40) Describe how this requirement will be met:
38) In-hospital intern instruction shall consist of regular daily rounds with well-conducted bedside teaching. On in-hospital rotations, the intern shall make rounds with the attending and resident staffs at suitable intervals, preferably on a daily basis. There shall be systematic instruction of the intern by the attending physicians, with discussion of the history, physical and laboratory findings and diagnosis and treatment. (Standard 4.41) Describe how this requirement will be met:

39) Under supervision of the attending staff, the intern shall be given increasing responsibility to acquire confidence in clinical judgment. Those institutions conducting clinical clerkship, internships and residency programs must exercise care to ensure that no group is neglected in the training program. The duties and responsibilities of students, interns and residents should be clearly defined. It shall be the responsibility of the chief of each service to ensure that every member of the house staff is receiving the supervision required and is being given responsibility commensurate with the ability and stage of training. (Standard 4.42) Describe how this requirement will be met:

40) The staff must recognize its obligation, for teaching purposes, in permitting full utilization of all patients assigned to interns. Will separate teaching and non-teaching faculty exist? (Standard 4.43) Describe how this requirement will be met:

41) The number of patients assigned to an intern shall be sufficient for adequate volume and variety, but at the same time, shall be appropriately limited to ensure that interns have adequate opportunity for thorough study and proper attention to assigned patients. (Standard 4.44) Describe how this requirement will be met:

42) Ambulatory rotations shall be appropriately organized, administered and supervised to provide diversified learning opportunities. (Standard 4.45) Describe how this requirement will be met:

43) Clinical conferences shall be scheduled regularly for the house staff. A record must be kept of attendance. (Standard 4.46) Describe how this requirement will be met:
(Attach draft of clinical conference schedule).

44) Interns shall participate in appropriate staff activities that evaluate patient care, such as: medical audit, mortality, tissue, utilization review, quality assessment and tumor committee meetings. At least once a month a clinical-pathological conference (CPC) shall be conducted with the cooperation of the pathologist and other appropriate clinicians. Records shall be kept of intern participation in department and staff meetings and all other educational activities. (Standard 4.47) Describe how this requirement will be met:

45) Interns shall participate in a reading program. This may be demonstrated by reporting current medical opinions concerning types of cases similar to those on assigned services or by review of special topics at staff conferences or journal club meetings. A record shall be kept of such reading assignments on the intern log. (Standard 4.48) Describe how this requirement will be met:
H. EVALUATION OF INTERNS

There must be effective evaluation of all components of the intern program. This evaluation must relate to the educational objectives of the program and shall include the intern’s clinical experiences, intellectual abilities and skills, and attitudes and interpersonal relationships.

46) At the completion of each rotation, the intern shall be evaluated by the appropriate faculty staff. These evaluations shall be signed by the assigned trainer and the intern, reviewed by the DME, and maintained on file in the medical education office. (Standards 4.51) Describe how this requirement will be met: Attach a copy of the form that will be used in evaluation of interns.

47) The DME and the Education Committee or a specialty residency evaluation committee (if applicable), shall review the performance of every intern on a quarterly basis to insure that educational objectives are being met. (Standard 4.52) Describe how this requirement will be met:

48) Prior to early termination of an intern contract, the institution shall provide the intern with appropriate counseling. There shall be written documentation of deficiencies and attempts to resolve these concerns. (Standard 4.53) Describe how this requirement will be met:

49) In cases of early termination of an intern contract, the DME shall provide the intern with documentation regarding which rotations, if any were completed satisfactorily. (Standard 4.54) Describe how this requirement will be met:

I. EVALUATION OF THE PROGRAM

While the intern program contains an important patient service component, it must be primarily an educational experience. This educational mission must not be compromised by excessive reliance on interns to fulfill institutional service obligations. To monitor this educational process, provisions should be made for various levels of program evaluation. The results of these evaluations should be used to continually improve the intern program.

50) At the completion of each rotation, the intern shall evaluate the rotation. These evaluations shall be reviewed by the DME and maintained on file by the DME. (Standard 4.57) Describe how this requirement will be met: Attach copy of the form interns will use to evaluate the program.

51) The DME shall evaluate each rotation at least monthly. The DME shall determine the amount of work being required of the interns to ensure that they are not being overburdened with routine responsibilities and that they have opportunity to observe a sufficient variety of cases. These evaluations shall be reviewed with appropriate individuals or departments. (Standard 4.58) Describe how this requirement will be met:

52) The Education Committee shall evaluate the intern training program quarterly. When necessary, the Committee shall approve affiliations within the scope of AOA policies and procedures. (Standard 4.59) Describe how this requirement will be met:
J. RECRUITMENT OF INTERNS

Intern recruitment shall be conducted following policies and procedures of the AOA Intern Resident Registration Program (IRRP) (the Match), and all appointments shall be made through this program. The institution shall not attempt to impose local requirements to supersede the AOA intern matching program.

53) Any intentional violation of the AOA Intern Resident Registration Program policies shall lead to suspension of intern training program approval. (Standards 4.11)
   Describe how this requirement will be met:

54) The program shall have a written description of the process and criteria used in selection of interns. This process shall be adhered to in the selection of interns. (Standard 4.12)
   Attach the description of the recruitment process and criteria for selection of interns.

55) Admission to an intern program shall not be influenced by race, color, sex, religion, creed, national origin, age, handicap or sexual orientation. (Standard 4.13)
   Describe how and where this requirement will be addressed:

56) The program shall enroll only graduates of AOA accredited colleges of osteopathic medicine. (Standard 4.14) Please note that violation of this requirement can lead to immediate termination of a training program.

SUMMARY OF REQUIRED ATTACHMENTS

You need to submit the following items with your application:

1) Letter of appointment to DME position.
2) Curriculum vita of the DME. If a portion of the program is conducted at an affiliation institution, attach curriculum vita of the DME at the affiliate institution.
3) Copies of all affiliation agreements.
4) Copy of the osteopathic intern training manual.
5) Hospital statistics (i.e., admissions, surgeries, mortalities, out-patient cases) for the past calendar year.
6) A written program description and the proposed rotation schedule for the year.
7) Form which will be used for the evaluation of interns.
8) Form interns will use to evaluate the program.
9) Description of recruitment policies and criteria for selecting interns.
10) If intern program will be part of an ACGME residency, submit a copy of the latest ACGME approval letter.
11) New institution worksheet
## WORK SHEET FOR NEW INSTITUTIONS

The worksheet for New Institutions must be completed in addition to the New Program Application for Base Institutions applying for their first Osteopathic training program. (Electronic submissions are preferred)

### A. BASIC INFORMATION

1. **Name of the Base Institution**  
   (the institution to be granted approval to offer osteopathic graduate medical education)

2. **Base Institution Street Address**

3. **Base Institution City/ State/ Zip**  

4. **Phone Number**

5. **Fax Number**

### 6. Specialty

### B. DIRECTOR OF MEDICAL EDUCATION

Name of the Proposed Director of Medical Education (Please attach CV, appointment letter and DME Job Description)

The following are minimum qualifications for the position of Director of Medical Education as listed in the *AOA Basic Document for Postdoctoral Training (rev. 07/2013) Section VI, A.*
